UpToDate: Evidence-based Clinical Decision Support

UPTODATE is a trusted, evidence-based decision support can help hospitals and health systems manage care variability by ensuring clinical decisions are aligned with the best available evidence, accelerating the adoption of new care approaches, and aligning care decision across your teams. UpToDate is the only clinical decision support of its kind that has been associated with improved outcomes for patients, as well as reductions in length of stay, diagnostic errors, unnecessary testing and referrals.

This will give you the best experience in using the UpToDate Online database and view UTD features and their shortcuts as well as find answers to your clinical questions quickly and seamlessly.

Just follow this link, <https://bit.ly/3AgG0z5> or scan the QR Code below:

PCMC Virtual Library UPTODATE Registration Instructions
